

Maintenance Manager
York County Transportation Authority
York, Pennsylvania

Are you looking to work for an organization that values teamwork, promotes creativity, focuses on the customer (internal and external) and embraces quality? Then we may have what you are looking for.

rabbittransit, York County's public transportation system, is seeking applications from qualified individuals to fill the position of Maintenance Manager. The Maintenance Manager is a senior management position, reporting to the Executive Director, responsible for leading the maintenance department to success. This position oversees all aspects of maintaining the Authority's 70-vehicle fleet, as well as ancillary equipment and facilities. This position is also responsible for the purchasing and capital equipment planning functions.

Applicants for this position should possess a Degree in Business Administration, Engineering, or a related field or trade school training in heavy-duty fleet vehicle maintenance and at least 5 years of progressively responsible experience in fleet maintenance management. Our new Maintenance Manager will possess; strong communication and leadership skills; an understanding of procurement procedures, budget preparation and execution, expertise in maintenance record keeping; inventory control methods and facilities management; experience in managing in a union environment; and the ability to demonstrate through their actions of what is expected from their subordinates. Additional experience may substitute for some of the educational requirements.
